### ***The Business Mix Suite***

The PlayNetwork Business Mix Suite has the ability to customize your soundtrack for one or many locations, allowing businesses to truly personalize their unique sound for specific environments by selecting up to five (5) handcrafted and professionally programmed PlayNetwork “Business Mixes” from a selection of 199 playlists, each containing hundreds of songs and instrumental tracks of music.

#### **Create Your Unique Sound:**

- ❖ Choose up to 5 Business Mixes
- ❖ Select % of each mix used
- ❖ Blend together to create your unique sound

You now have the ability to make your own music choices and place them into one distinctive and unique sound for your business. We build the music program for you, but you have the control to mix our professionally programmed Business Mixes to suit your tastes.

The process of combining several music mixes into one very compelling and personalized sound is only available from PlayNetwork and is offered to businesses large and small through the innovative Business Mix Suite service. And, you can change out your initial playlists for new ones at any time. As with all music services provided by PlayNetwork, your music content is updated on a monthly basis in order to keep the music content fresh and appropriate over time.

Your Business Mix Suite is pre-loaded onto PlayNetwork’s state-of-the-art digital media player. This leading edge Internet Protocol-enabled, hard-drive based playback system can receive content updates and upgrades via any high speed connection internet connection.
